Miloslav Hříbal

Fullstack Developer

Plzeň, Czech Republic +420 703 341 040 miloslav@hribal.site hribal.site

SUMMARY

Fullstack Developer with 3 years of experience building and maintaining high-traffic web applications. Skilled in JavaScript, TypeScript, Node.js, React, Next.js, Vue.js and Nuxt.js on the frontend and backend, with hands-on experience in MongoDB, SQL, Docker and Linux. Focused on performance optimization, system stability and responsive, cross-browser user experiences.

EXPERIENCE

Sales Assistant · Cannaland s.r.o. 05/2025 – 03/2026

Fullstack Developer · Skins MC 01/2024 – 12/2025

- Developed and optimized the frontend interface, delivering a fast, responsive user experience across devices.
- Debugged and resolved critical backend issues using Java and JavaScript (Node.js), significantly improving system stability.
- Managed MongoDB database operations and streamlined deployment workflows using Docker containers.

Fullstack Developer · Minecraft IP List 01/2023 – 12/2023

- Built and maintained the platform's user interface using PHP for dynamic server-side rendering.
- Optimized frontend performance and page load times for a high-traffic website serving millions of users worldwide.
- Ensured cross-browser compatibility, responsive design and web accessibility across browsers and devices.
